

Gotzgrang Loses Control!

The goblins at Gotzgrang Bank are losing control of their counting system! The value of money throughout the Wizard World is in flux...

AND ON MARKET DAY NO LESS!!!

No worries! Hogsblanch Market is still open and ready for business.

It is always more fun to shop with a friend. Begin your morning by choosing a shopping partner from your house. You and your partner will purchase some much-needed

items for both your House **A1** and Herbology class. You receive \$300 for shopping.

The money takes three forms:

Papers	Silvers	Coppers
		
Flat	Long	Unit
Base 10		

Clever wizards! ALL prices at the market are in whole number amounts. You and your partner get to shop for one *magical hour* and spend up to \$143 on any items you choose.

Record what you purchase. How much you have spent and how much you have left? Be sure to trade in your money for the appropriate change.

BEWARE! Crossing over the \$143 mark will result in the removal of points from your House!

See Market on page D3

Market (from A1)

A green flash erupts from Gotzgrang. Shoppers at Dingles Alley were unimpressed with the magical display. "You should have been here last week," remarked a passer by. "One minute, I was shopping for groceries, the next, I glowed purple!"

The *hour* is up! A bright green flash erupts from Gotzgrang and spreads across the land! All of the dollar amounts and values have changed! The Market now only accepts Wizard Currency.

Wizard Currency takes three forms:

Galleons	Sickles	Knuts
		
Flat	Long	Unit
Base 6		

You have not purchased all that you need! Spend the rest of your money.

First, convert your Money into Wizard Currency.
How much money do you have left?

Now decide what else you want to purchase (NEVER FEAR! The Gotzgrang blast changed the price of wares into Wizard Currency) and SPEND!

Dingles Alley

Houses to spend the most money without going over their allotted amount MAY win House Points!
